Article 3.1 Structure of academic year

1. Every degree programme will be offered in a year divided into two semesters.
2. Every semester consists of three consecutive periods of eight, eight and four weeks.

6. If the student wishes to choose a different component than those stipulated in the Study Guide as part of his/her electives, prior permission is required from the Examination Board.

4. Examinations

Article 4.1 Signing up for education and examinations

1. Students must sign up for participation for all programme components. This is only possible in the periods designated for that purpose.
2. Every student must sign up for every examination opportunity. The procedure for signing up is described in an annex to the Student Statute and on VUnet. Participation in the examination may be refused if the student does not sign up or fails to do so in time.
3. By way of exception to the provisions of paragraph 1, any student who has correctly signed up for participation in the instruction/classes for a particular course and has been admitted will also be signed up for the subsequent examination, unless the degree programme stipulates a different approach.

**Article 4.2 Type of examination**

1. The Study Guide stipulates the way in which a component is concluded and the form any examination will take.
2. At the student’s request, the Examination Board may permit a different form of examination than that stipulated in the Study Guide. If applicable, more detailed regulations on this are included in the Rules and Guidelines for the Examination Board.
3. In the case of a component that is no longer offered, in the academic year following its termination, at least one opportunity will be provided to sit the examinations(s) or parts thereof and a transitional arrangement will be included in the Study Guide / website / VUnet.

**Article 4.3 Oral examinations**

1. Unless otherwise specified for the relevant component in Section B, no more than one student will be examined orally at the same time.
2. An oral examination is public unless the Examination Board or examiner determines otherwise in an exceptional case. A student may submit a reasoned request to the Examination Board to depart from the public nature of the oral examination. The Examination Board will balance the interests of the student against the interests of a public examination.
3. Unless otherwise specified by the Examination Board, an oral examination will be taken in the presence of a second examiner.
4. Before the commencement of an oral examination, the examiner will ask the student for valid proof of enrolment and identification.

**Article 4.4 Determining and announcing results**

1. The examiner determines the result (= mark) of a written examination as soon as possible, but at the latest within ten working days. Contrary to the provisions of the first sentence, the marking deadline for theses and final assignments is no longer than twenty working days. The examiner will then immediately ensure that the marks are registered.
2. If, as a result of exceptional circumstances, the examiner is likely to exceed the deadline, he or she must inform the Examination Board, stating reasons. If the Examination Board approves the delay the board will then ensure that the students are informed of the new deadline.
3. The examiner determines the result (= mark) of an oral examination as soon as the examination has finished and informs the student accordingly. The third sentence of the first paragraph applies.
4. In the case of alternative forms of oral or written examinations, the Examination Board determines in advance how and by what deadline the student will be informed of the results.
5. Together with the result of an examination, the student’s attention will also be drawn to their right to inspect the assessed work and have a post-examination discussion as stipulated in Articles 4.9 and 4.10, as well as his/her option to appeal to the Examinations Appeals Board (Cobex).
6. A student may lodge an appeal against the way in which the result was reached with the Examination Appeals Board within six weeks of the announcement of the result.
7. In the event that the Examination Board ascertains that a student has committed fraud, it is entitled to take measures against the student.

**Article 4.5 Resits**

1. An opportunity will be offered to sit examinations in the degree programme twice in each academic year.
2. The most recent mark will apply in the event of a resit.
3. As an exception to paragraph 1, practicals as listed in article 2c are examined only once in each academic year. In case the grade constitutes the final grade, not a constituent grade, an insufficient grade may be improved by the student before a deadline specified by the examiner; the final mark will in that case not exceed 6. In case this applies to the final thesis the programme’s thesis coordinator may deviate from this rule in case of exceptional circumstances.
4. The resit for a (constituent) examination must not take place within ten working days of the announcement of the result of the examination being resat.

5. A resit always covers the same material as the original (constituent) examination and is offered in the same form.

**Article 4.6 Marks**

1. Marks are given on a scale from 1 to 10 with no more than one decimal point. An examination is assessed as a pass or a fail, or, when expressed as a mark, 6 or higher (pass) and 5 or lower (fail).

2. The final marks are given in whole or half points.

3. Final marks between 5 and 6 will be rounded off: between 0.1 - 0.4 rounded down; between 0.5 - 0.9 rounded up.

4. Symbols may be used rather than numbers (v, g etc.).

**Article 4.7 Exemption**

1. At the written request of the student, the Examination Board may exempt the student from taking one or more components, if the student:
   a) has passed a course component of a university or higher professional education programme that is equivalent in both content and level; or
   b) has demonstrated through his/her work and/or professional experience that he/she has sufficient knowledge and skills with regard to the relevant course component.

2. The Examination Board will make a decision within twenty working days of receiving the written request.

3. This exemption does not apply to the Master’s thesis.

4. The Study Guide may set a limit on the number of components for which an exemption can be granted.

**Article 4.8 Validity period for results**

1. The validity period of examinations passed and examination exemptions is specified in Section B. The validity period of a constituent examination is limited to the academic year in which it was sat.

2. The Examination Board can extend the limited validity period of an examination or exemption on the basis of hardship if a student submits a reasoned request to that effect.

**Article 4.9 Right of inspection**

1. For at least twenty working days after the announcement of the results of a written examination, the student can, on request, inspect his/her assessed work, the questions and assignments set, as well as the standards applied for marking.

2. The Examination Board can determine that the inspection or post-examination discussion referred to in paragraph 4.9.1 and 4.10 take place exclusively at a specified place and at a specified time. The place and time referred to in the previous clause will be announced at the time of the examination.

3. If the student was unable to attend at the place and time referred to in paragraph 2 through no fault of his/her own, an alternative option will be offered.

4. If a student intends to appeal against the way in which his/her mark was assessed, he/she can be issued with a copy of the marked work at cost price.

**Article 4.10 Post-examination discussion**

1. If a collective post-examination discussion has been organised, individual post-examination discussions will be held only if the student has attended the collective discussion or if he/she was unable to attend the collective discussion through no fault of his/her own.

2. Students who meet the requirements stipulated in the first paragraph can submit a request for an individual post-examination discussion to the relevant examiner. The discussion will take place at a time, location and manner to be determined by the examiner.
Article 4.11 Master's final examination

1. The Examinations Board determines the final examination result and the date on which the student obtains his/her degree after it has been established that the student has passed all the units of study belonging to the programme.
2. As an exception to paragraph 1, prior to assessing the result of the examination, the Examination Board can undertake an evaluation of the student’s knowledge with regard to one or more degree programme components, if and in so far the results of the relevant examinations in question warrant it.
3. A diploma can only be awarded after the Executive Board has declared that the student has satisfied all the procedural requirements, including the payment of tuition fees.

Article 4.12 Diplomas and transcripts

1. The Examination Board grants a diploma as proof that the student has passed his/her final examination. The Executive Board sets the model for the diploma. The Examination Board adds a diploma supplement to the diploma providing information on the nature and content of the degree programme completed. The diploma supplement is drawn up in English and complies with the European format.
2. Individuals who have successfully completed more than one or more components of the programme and who cannot be awarded a diploma as stipulated in paragraph 1 will, on request, receive a statement to be issued by the relevant Examination Board stating at least the components that have been successfully completed together with the components they involved and the number of EC obtained.
3. The student can, without needing to provide reasons, request that the Examination Board does not proceed to award a diploma, unless the student him-/herself submitted the request for its issue, taking due account of the validity rules.

Article 4.13 Fraud and plagiarism

1. The provisions of the Rules and Guidelines for the Examination Board apply in full.
2. Electronic detection software programs may be used to detect plagiarism in texts. In submitting a text, the student implicitly consents to the text being entered into the database of the detection program concerned.

5. Study supervision and study progress

Article 5.1 Administration of study progress and academic student counselling

1. The Faculty Board is responsible for the correct registration of the students’ study results in the student information system. After the assessment of a component has been registered, every student has the right to inspect the result for that component via VUnet and also has a list of the results achieved at his/her disposal in VUnet.
2. Enrolled students are eligible for academic student counselling. The types of academic student counselling available are listed in Section B.

Article 5.2 Adaptations for students with a disability

1. A student with a disability can submit a digital request to the academic adviser to qualify for special adaptations with regard to teaching, practical training and examinations. These adaptations will accommodate the student’s individual disability as much as possible, but may not alter the quality or degree of difficulty of a course or an examination. In all cases, the student must fulfil the exit qualifications for the degree programme.
2. The request referred to in the first paragraph must be accompanied by a statement from a physician or psychologist. Where possible, the statement should include an estimation of the extent to which progress of study will be hindered.
3. In the case of dyslexia, no recommendation from a student counsellor is required and a statement from a BIG, NIP or NVO accredited testing centre will suffice.
4. The Faculty Board or, on its behalf, the Graduate School director or the programme director decides on the adaptations concerning the teaching facilities and logistics. The Examination Board will rule on requests for adaptations with regard to examinations.

5. A request for adaptations will be refused if it would place a disproportionate burden on the organisation or the resources of the faculty or university were it to be upheld.

6. The decision may include a limitation of the period of validity.

6. Hardship clause

*Article 6.1 Hardship clause*

In exceptional cases, the Examination Board may deviate from these Academic and Examination Regulations in the student’s favour, where application of the regulations leads to disproportionate disadvantage or unfairness of a serious nature.
