THE QUEST FOR A NEW PARADIGM OF INTERNATIONAL LEADERSHIP
New Integrated view on Leadership Competence

Whereas Managers make decisions *on issues*, high performing leaders and international managers continually *reconcile dilemmas*

Transcultural Competence = the propensity to reconcile seemingly opposing values
“Outstanding Leaders sense the dilemmas facing their organizations and their industries before their competitors and tend to find solutions more quickly”.

“The more formidable the dilemma, the greater the gain from resolving it first!”

Charles Hampden-Turner
To Create Wealth is
to combine Values that are not easily joined…..
Therefore scarce...
Therefore profitable…..
Special focus of this symposium

• Help increase the awareness, interest and understanding of ‘servant-leadership; higher educational needs and challenges in a global perspective’, in theory and in practice

• Generate an appreciation for the importance of this approach, particularly in the 21st C world of business and academia

• Compare the current SL theories and characteristics of this age old approach in different contexts

• Generate research interest in the relevance of this approach in the corporate and non-corporate world

• Encourage a dialogue between FEWEB Master students, and SL professionals in the (business) world.
“Servant-leaders have the propensity and competence to help organizations and its teams reconcile dilemmas for better performance”

Servant or Leader?
Today I am going to teach you something relevant.

Hey there! Can you please keep it rather scientific.
Executing through Vision

- Executing Vulgar Pragmatist

A BHAG demands extreme efforts, inspires people, and creates long-term team spirit

Collins & Porras talk about “Big Hairy Audacious Goals” (BHAGs)

Hamel & Prahalad talk about “Stretched Goals”
Big Hairy Audacious Goal: keywords

- Essence, open and meaningful
- Focused research philosophy; dilemma- beyond linear thinking
- Bridging: theory with practice, education and research etc.
- ‘Serving’ function; reciprocity in research/education, giving back
- Connecting; via people, spirituality, dilemmas, etc.
- Recognized concept; evolution and dynamics of SL, evolving, not fixed
- Comparative: a movement of connectivity while bridging time (history), borders (international) and (e-)organizations (culture) and fields of interest
  - (interdisciplinary)
- Applicable and significance in multicultural (e-)environments
- Exchange of experience - via research and education
- Generate energy: motivational, anti-cyclic, accelerator of innovation
- Quantify: to reach a quantifiable # of students/ organizations/sectors, universities, prizes for recognized s-leaders
By the year 2015 we educate at least 50 future servant-leaders by enabling them to bridge practical applications out of state-of-the-art research.

Stichting Giving Back

• Giving Back wil jonge, bewezen talentvolle mensen de extra bagage aanreiken die cruciaal is voor het kunnen bereiken van een succesvolle maatschappelijke positie. De stichting begeleidt getalenteerde scholieren (HAVO/VWO) tussen vijftien en achttien jaar en studenten aan universiteiten en hoge scholen, van wie het carrièreperspectief niet aansluit bij hun mogelijkheden.

• Ze worden geselecteerd op basis van hun goede prestaties en motivatie. Hoewel aan ambities en talenten geen gebrek beschikken ze over onvoldoende bagage om tot een succesvolle carrière binnen de Nederlandse samenleving te komen. Giving Back biedt deze high potentials niet alleen de benodigde knowhow, maar ook het sociale netwerk dat nodig is voor een geslaagde studiekeuze en loopbaan.
